CREATIVE DANCE teaches movement fundamentals while encouraging children to become contributors to the creative process. Classes work on rhythm, grace, strength, flexibility, cooperation, and creativity. Each action-packed class consists of activities which promote body awareness, technical competence, and knowledge of dance concepts. Creative Dance is equally enjoyable for boys and girls, because it values the individual movement styles of each student.

JAZZ & HIP HOP teaches the latest dance moves to contemporary pop music. Students will learn basic warm ups, specific steps, and dance combinations at an age-appropriate level. Students will also contribute creatively to making dances.
