

**Northeastern Section NExT at Spring Meeting.....Lisa Humphreys**

The Northeastern Section is continuing with its Section NExT activities for new and relatively new colleagues at this year's spring Section meeting. By providing talks and workshops on issues of interest, opportunities to meet and share ideas with other new colleagues, and an introduction into Section activities, we hope to assist new faculty in their transition from graduate school to professional academic life. We welcome all untenured full time faculty, both those who have and have not been National NExT fellows. We also welcome all newly hired faculty (those of whom will begin their appointment in the summer or fall of 2003).

The program will begin at 10:00 am on Friday June 13, 2003 and will consist of two presentations related to the teaching of undergraduate mathematics. One of these will be at a more general education level and the other will concentrate on higher level mathematics. In addition, there will be an organized panel discussion on preparing for tenure. Lunch and refreshments will be provided. A detailed program will be distributed soon via our Section listserv.

If you are interested, please contact Lisa Humphreys of Rhode Island College at [lhumphreys@ric.edu](mailto:lhumphreys@ric.edu). You should also register for the Section meeting by completing the registration form in the Section Newsletter and check off that you will be participating in the Section NExT program. (If you did not receive a Newsletter, indicate that to Lisa.) Note: the Section NExT activities are free.
